WORK EXPERIENCE

Front-End Developer

Astroswamig Solutions, Sec-5,Gurgaon

📅 November 2020 - current   📍 Office

- Co-operated closely with the marketing team to develop concepts and mock-ups on 10+projects.
- Collaborated with internal and external design / dev resources to implement scalable front-End templates and design modules..
- Assisted the creative team in developing visually appealing websites.
- Developed landing page functionalities and features.
- Addressed any design issues that arose.
- Maintained and updated website functionalities in collaboration with the CSS and web development teams.
- Website Management through HTML, CSS, JS, Boot-Strap, MongoDb,React,Node Js,Express.

Personal Projects:

E-Commerce Project - MERN Stack

- Ensured 6 unique projects complied with correct technology processes, industry best practices, and company standards.
- This project is a very vast project and involves a lot of front-End, back - End as well as database knowledge. It is considered a major project and It takes a lot of hard work and time to make it.
- Worked in an Agile, collaborative environment to receive design requirements, peer program, and test applications.

Personal Site - React

OBJECTIVE

CS graduate and adept front-end developer focusing on JavaScript mobile-first development. After success with Boot-Strap front-end development, I am eager to continue my career by joining Astroswamig Marketing's hardworking and interactive team where I will continue expanding my JavaScript knowledge into perfecting accessibility and responsive design.
